HOLMEN

Holmen Paper products comply with the RoHS legislation

The Restriction of Hazardous Substances Directive, RoHS, restricts the use of certain hazardous substances in electrical and electronic equipment. Holmen Paper products must comply with the RoHS directive only if the products shall be used for such applications.

Holmen Paper can confirm that all delivered products from Braviken paper mill and Hallsta paper mill are RoHS compliant.

Holmen Paper products do not contain flame retardants, phthalates or heavy metals as described in the RoHS directive.

Questions about RoHS will be answered by your commercial contact with the assistance of experts at each mill.
